

SAVES Program

March 2018— First Edition

MIAMI DADE COUNTY PUBLIC SCHOOLS

ALAIN & ASLAIN LODVIL TWO PEOPLE, ONE GOAL: BE SUCCESSFUL

Twin brothers, Alain and Aslain Lodvil, were born in a small town in Haiti, The Baradères. They both completed their studies in their native country, one in Psychology and the other in Linguistic. In September of 2016, they came to the United States to be reunited with their mother and sisters after more than 20 years.

Just a few weeks after they arrived in Florida, the brothers came to South Dade Technical College where they wanted to pursue their studies and learn a trade because they believe that education is the key to success. Before tackling their goal, they decided to improve their English and registered for classes. They moved up rapidly and were ready to start with our vocational program.

In 2017, they both enrolled in the Health field, deciding to take on Medical Assisting. They are both excellent and very disciplined students focusing on their goals to be successful.

They are grateful to the SAVES Program which gave them the opportunity to pursue their dreams by helping them

financially and, more importantly, by giving them all the moral support they needed.

Aslain concludes by saying: “I want to encourage everybody to pursue their education to contribute to the development of their adopted country and give a better view of themselves and their home country.”
