

# SAVES Program

May 2018— First Edition

MIAMI DADE COUNTY PUBLIC SCHOOLS

## SAVES Helps Student Accomplish her Goals

Ismary Delgado arrived in the United States on October 14, 2015 with her husband and two children. She attended the University of Havana in Cuba and studied Medicine. Later, she worked in the Medical Science Department at the same university. When Ms. Delgado decided to leave Cuba, she knew it would be difficult, but she also knew that she would have opportunities in the United States.

Shortly after arriving here, Ms. Delgado received her work permit and began working at Navarro Discount Pharmacy. She knew that learning English was the only way to be successful, so she decided to go back to school and learn the language. She was recommended to go to Hialeah Adult Education Center because the school offers courses in the medical field. She was ecstatic to learn that aside from English, she could also enroll in a course in her field. Ms. Delgado went to the school, where she received information about the Pharmacy Technician Program. The registration personnel told her about the SAVES program at the school and introduced her to the SAVES staff. Ms. Delgado was explained how the program helps refugees and asylees with books and

tuition.

On April 27, 2017, Ms. Delgado enrolled in the Pharmacy Technician program and was provided with all SAVES benefits. She is currently in her third trimester in the program. After completing the Pharmacy Technician Program, Ms. Delgado plans to pursue her dream of becoming a Pharmacist by enrolling in a Pharmacy program at the University level.

She is very grateful to her teacher, Ms. Walquiria Pino, and to the SAVES staff for all the help and support that she received at Hialeah Adult Education Center. The SAVES staff at the school would like to wish Ms. Delgado the very best in accomplishing all her goals.
