

SAVES Program

July 2020 — First Edition

MIAMI DADE COUNTY PUBLIC SCHOOLS

Lifelong Goal Attained: Nicole Success Story

Nicole Eugene is originally from Haiti and entered the SAVES Program at the North Miami Adult Education Center in August of 2017. Ms. Eugene first began studying ESOL, which was paramount in her learning of the English language. Her ESOL studies were the basis of her success in the United States and helped her secure her first job. After taking Adult Basic Education classes, Ms. Eugene was referred to the SAVES staff by the vocational department.

Highly motivated, Ms. Eugene then decided to continue her education and entered the Health Science Education program. She completed multiple courses in entire health care field of study offered at the school including Health Care Worker, Home Health Aide, Phlebotomy Aide, and EKG Aide. The SAVES program was able to support her throughout her course of study by assisting her with tuition, books, and necessary materials for each class. She is extremely grateful and wishes to express her sincere appreciation to the SAVES program for giving her the chance to attain the lifelong goal of becoming a self-sufficient and productive individual.

Ms. Eugene encourages all refugee and/or asylee adult students to take advantage of all the wonderful benefits of the SAVES

program. She also wants to thank the SAVES program and all the North Miami Adult Education Center's staff for their assistance during her educational journey and the support she has received in helping her attain her goal in the United States.
