

# SAVES Program

October 2023 — First Edition

MIAMI DADE COUNTY PUBLIC SCHOOLS

## Focus in better up my lifestyle with SAVES

My name is Peterson Pierre, and I am from Port of Prince, Haiti. The main reason I moved to the United States was because I was looking for a better life and an opportunity to participate in the achievements of this country. Moving to USA was the best decision for me, so far, the experience has been amazing.

I discovered the SAVES program on Instagram which I think was a miracle. One day I was just scrolling in Instagram, then the SAVES information popped up. I started to read about the program and all the educational opportunities it provided. I am grateful to be in the SAVES program, they help people in need, the staff is patient, professional, always ready to help, and always supportive to the students.

I began my education in ESOL classes, have now progressed to the vocational program and

studying Phlebotomy. My goal is continue learning and become a good professional to serve this country and the American people. Me and my fellow Haitian students are very determined to learn thanks to the SAVES program, it helps keep us focused, enthusiastic, and motivated for the challenges ahead. You must always improve to be your best and if you want to grow. With the support of SAVES, it has helped me grow, I have the energy to go forward in my studies and it has helped me be my greatest.
